

Cuyahoga Falls City School District

Notification of Asbestos Inspections

In compliance with the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), we performed inspections of each of our school buildings for asbestos-containing building materials. In April of 2015, we performed our 3 year re-inspection of our schools, the next 3 year re-inspection will be in January of 2018. In March of 2017, we performed our latest 6 month surveillance. Our next 6 month surveillance will be in September of 2017. The inspection findings and asbestos management plans are on file in each school.

The EPA requires us to perform re-inspections of the asbestos materials every 3 years. Accredited asbestos inspectors performed these re-inspections and 6 month surveillances.

The results of the re-inspections are on file in the management plan at each school. Everyone is welcome to view these at any time during regular school hours. The Asbestos Program Designated Person, Joe Bagatti, is available to answer any questions you may have about asbestos in our buildings at 330.926.3800 ext. 502885.
