Roberts Middle School Profile

Roberts Middle School embodies the Cuyahoga Falls City School District's Vision of being "*the hub of our community; committed to a culture of caring! We innovate. We create. We personalize education for all!*" It is our mission at Roberts Middle School to empower 21st century learners with the academic and social skills needed to contribute to an ever changing global economy. These middle school years are so vital to each student's development whether it be physical, emotional, or academic. This is why we approach each student with the one question "What can we do that is in the best interest of this student?" This is what drives our decision making process and advances our school culture.

At Roberts, we foster the idea of being one big Black Tiger Family. Our Roberts family includes students from many diverse backgrounds. We have students in our building representing a variety of different cultures, ethnicities, and economic backgrounds which is fantastic because it helps our students learn to embrace diversity and welcome each other's perspectives about school and life. At Roberts Middle School, we believe that student success is directly related to student involvement in activities and programs. Our extensive list of extracurricular activities including Yearbook, STAND (diversity group), Builder's Club (leadership group), National Junior Honor Society, Art Club, and The Voice (Principal's student advisory group) create a continuum of learning opportunities that serve the whole student. Last year alone, our student body completed community service projects including a food drive during the holiday season, a Turkey Trot to raise money for families in need, clothing drives, a toy drive for a local hospital, and established a thrift store for fellow students in our building.

Roberts Middle School provides a safe and secure learning environment for all of its students. We have a tremendously rigorous curriculum with high expectations for each of our students. Technology is utilized on a daily basis as we have over 400 Chromebooks and three additional computer labs to service our population of about 450 students. We work as grade level teams to discuss and meet the needs of each of our students and to ensure that we personalize their education in a way that best serves them. This may take the shape of a progressive system of tiered classroom support, differentiation of instruction, 1:1 intervention, and second chance opportunities. This approach, along with the opportunity to take accelerated courses for high school credit in Language Arts, Math, Art, and Social Studies has led to Roberts Middle School being recognized by the Ohio Department of Education as a 'School of Momentum' for our students' level of academic growth. We are proud of what we do here at Roberts and it shows with how we take care of our students and their families. For us, we truly do live out our district's mission of "*Every student, every day, every opportunity.*"

Cuyahoga Falls City School District

"Every Student, Every Day, Every Opportunity."
